Compatible with the latest servo amplifier

Compact flat AC servo actuator FHA-C series has become compatible with the latest servo amplifier MINAS A6 series manufactured by Panasonic.

Compatibility with RTEX, EtherCAT and general communication (serial, analog I/O, Modbus) contributes to integration of the user interface, and the compact size and flat shape contribute to reduction in size of the device configuration.

Composition

Compact Flat

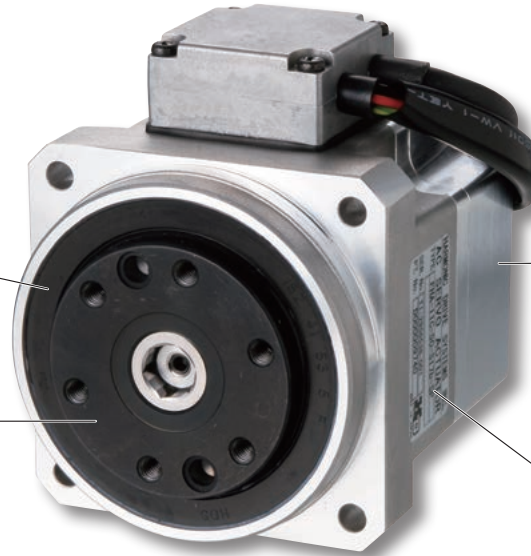

This is the AC servo actuator consisting of both a compact HarmonicDrive® and a flat AC servo motor.

The thin and compact shape and structure simplifies the entire device structure.

The size can be selected from three types: 8, 11, and 14.

Speed reducer model

HarmonicDrive® CSF series

Encoder

Absolute encoder (17 bits)
Compatible with Panasonic's format

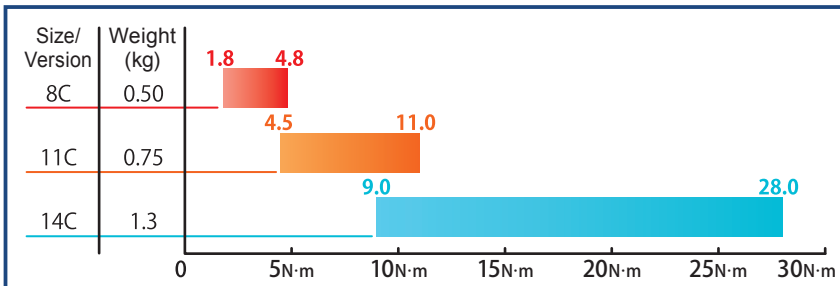

Output bearing

Cross roller bearing
